

## Optimill Swivel Locking Cap

The lock fitted into the Optimill swivel locking cap is a high security lock, specially manufactured and designed for Optimill just for this product. Provided with the swivel lock there are 2 keys. On the keys there is a code, typically beginning with G, **please take a note of this code or take a picture and keep it in a safe place as we cannot get spare keys cut without this unique key code.**

Optimill Ltd do not accept any responsibility for the loss of keys or misuse, therefore resulting in swivel locks being locked on or off vehicles.

To purchase spare keys please email [sales@optimilluk.co.uk](mailto:sales@optimilluk.co.uk) with proof of purchase and a picture of the key with the unique code visible. *Many Thanks!*
